

# Welcome to Broughton Vets!

---

We've been providing a friendly and professional veterinary service to our community since 2003.

Our lovely team are here to help you keep your pet healthy and happy throughout their lifetime, with our great range of routine services and excellent facilities.

Our branches in Broughton Astley and Lutterworth also hold bronze and silver International Society of Feline Medicine (ISFM) Cat Friendly status respectively. This means we've been recognised for the extra efforts we make to support our feline friends.

You can find out more about our practice, team and branches [on our website](#).

- End of life care.

Head to our website to **[learn more](#)** or **[get in touch](#)** to book an appointment.

## Join our Pet Health Plan!

Our Pet Health Plan is the simple way to support your pet's health while making significant savings. Your pet will need routine treatments and vaccinations throughout its life, and our plan gives the peace of mind that comes from knowing that your pet's preventative care is covered.

We offer our Pet Health Plan for your cats, dogs and rabbits, breaking down the costs of routine veterinary services to a monthly direct debit, and giving your pet its vaccinations, parasite prevention and regular checks throughout the year.

**Visit our website** to learn more or sign up before your first visit, so that we can ensure you receive all the maximum benefits from the plan from the get-go!

## Vaccinations

Vaccination is vital in protecting your pet from key infectious diseases that cause pain, distress and can be life-threatening. Annual preventative healthcare and vaccination appointments provide an opportunity for regular health checks for your pet and an understanding of their needs.

You can **learn more about vaccinating your pet** on our website. Get in touch with our team to book an appointment.

## Flea, tick and worm treatment

We can advise on the best products and routines to keep your pet healthy, happy and free from pests. Our team will be happy to put together a preventative healthcare plan to meet your pet's individual needs, all year round.

## Dental care

Dental disease is commonly seen in dogs, cats, rabbits and other species.

When your pets visit us we will routinely undergo a full clinical examination, which includes looking inside their mouths and at their teeth. This is often when dental disease is discovered.

In between check-ups, you can help to take care of your cat or dog's oral health by brushing their teeth regularly with a pet safe toothpaste.

If you want to learn more about how to start brushing your pet's teeth, are having problems brushing or want any more information on how best to care for your pet's dental health, please do **get in touch**.

Find out more about dental care **on our website**, or get in touch to book a dental appointment for your pet.

## Neutering

Neutering is a surgical procedure which takes away a pet's ability to reproduce. It is known as spaying in females and castration in males.

Neutering pets can be beneficial for their health and wellbeing, as well as preventing unplanned litters.

**Visit our website** to learn more, or get in touch to book a consultation with our team.

## Prescriptions

To order repeat prescription medication for your pet, please **contact your local branch**. Please note that we require at least 48 hours' notice to prepare your order for collection. Only veterinary surgeons are permitted to prescribe POM-V drugs, controlled drugs (CDs) and drugs prescribed under the cascade.

# Emergency and out of hours care

---

## *Emergencies during our opening hours*

If you and your pet find yourself in an emergency situation during our opening hours, please call ahead to advise us that you are attending the practice so that we can ensure we are ready for your arrival.

## *Emergencies outside of our opening hours*

Our out of hours service is supplied by Northlands Veterinary Hospital.

If you have an emergency outside of our opening hours, please call the Northlands team directly on **01536 516 999**. Their team will advise you on how to proceed.

**Northlands Veterinary Group, 2 Northampton Road, Kettering,  
Northants NN15 7JU**

Please note that you will be responsible for transporting your pet to and from Northlands Veterinary Hospital.

Their hospital has excellent inpatient and hospitalisation facilities, so you can trust that your pet will be in the safest of hands.

For information on pricing, please visit the **Northlands Veterinary Group website**.

Please note that Northlands Veterinary Hospital are available for emergencies only. For all routine care, please call us during our opening hours.

Visit **our website** for more information.

## Terms and conditions

You can find our full **terms and conditions** and **privacy policy** on our website.
